Tools & Tech: Git, Linux, ESRI ArcGIS, SAP, Jira, Confluence, Microsoft 365 (Excel, Access, Fabric, Copilot, Power BI), Tableau

WORK EXPERIENCE

Risk Data Analyst

May - August 2025

BMO Capital Markets — Office of Chief Operating Officer

Toronto, ON

- Leveraging coding skills to enhance queries for coordinating cross-functional data sources (Excel, SQL & Cloud Databases)
- Project Lead for **operational analysis reporting dashboard**, designing interactive **Power BI** visuals to evaluate **1,000+** key performance metrics (KRM) and **500+** internal key risk indicators (KRIs)
- Developing trend analysis models using Power Query & DAX to predict and enhance key identification and disaster recovery processes used for communicating technical concepts to key stakeholders/leadership

Business Technology Analyst

Sept. 2024 – April 2025

RBC Insurance — Pricing & Product Enablement, Pensions & Longevity Solutions

Mississauga, ON

- Created **Python & VBA automation tools** & technical documentation improving data processing & knowledge transfer
- Optimized **database modeling, management, & architecture design** for end-to-end data platform integrating **Excel, SQL, Access, Power Bi**, enabling competitive business intelligence and long-term strategy insights
- Collaborated to develop functional actuarial system requirements to verify historic data/market reports of **2,000+** quotes
- Won Co-op hackathon: Minimum viable product prototype for digital AI assist tool, enhancing advisor & client experience

Data Analyst

April – August 2024

Elections Ontario — Provincial Registry of Electors Database

Toronto, ON

- Developed backend cloud procedures to maintain data governance of the Electors Management System database
- Built **ETL data pipelines** using **Microsoft Fabric, SQL, VBA, Excel, and ESRI ArcGIS** tools to centralize **1,000,000+** records to create new digital Electors Portal features accessed by 2,000+ daily stakeholders
- Supported collaborative ad-hoc business intelligence projects to plan non-partisan strategies for youth voter registration
- Presented strategic foresight analysis into risk management of trends in emerging electoral technologies (AI, cybersecurity)

Residence Assistant – (Programmer of the Year Award, 2024)

Sept. 2023 – Present

University of Guelph — Student Housing Services

Guelph, ON

- Recognized for leadership in **collaborative & innovative project management** facilitating engaging events and initiatives focused on positive and balanced mentorship for diverse student experiences
- Employed MS Office & SAP ERP for Communication, Analysis, and Documentation of processes to manage building finances, safety protocol, and cross-functional project coordination

Data Analyst

May – August 2023

Telus — Digital AI Solutions

Remote (Fr. & En.)

- Processed data of images, geopolitics, & sociocultural affairs to optimize machine learning business models
- Applied data qualification, validation, and transformation techniques (supervised fine-tuning and reinforcement learning) to test and identify trends to improve Generative AI algorithms for LLM & search engine optimization

PROJECTS

Student Housing Shift Generator | Python, Django, HTML/CSS, JavaScript, SQL

- Full-stack app to automate shift scheduling process, reducing supervisor schedule creation time by **95%**

eduscribe.ai - Laurier's The GoldenHack Hackathon & Case Competition | Python, Flask, HTML/CSS, JavaScript

- Won 1st for Accessible Business Goal: AI platform translating/transcribing auditory files to text with GoogleTranslate API

Canadian Labour Market & Sunshine List Data Analysis | R, Python

- Explored correlations of economic factors on employment using **statistical analysis & predictive modeling** techniques

VOLUNTEER / EXTRACURRICULAR LEADERSHIP

SOCIS Year Rep: Mentorship, outreach, advocacy, faculty liaison, & hackathon instructor for 500+ School of Computing students

Google Developers Students Club/Hackathon Coding Instructor: Firebase, NoSQL, OpenCV workshops to 250 members

Bilingual Youth Ambassador (French B2 proficiency): University of Saskatchewan Explore Canada Languages Program
